The manual steel strapping tool CH 47 is one of the lightest in its class, but can tension up to 6,500 N. The CH 47 straps without seals, so minimal effort is required. The device can handle no fewer than three different widths of steel strip, namely 13, 16 and 19 mm. The bandwidth on the device can easily be adjusted with the supplied tools.

The CH 47 is a user-friendly device with ergonomic design and balanced weight. The strapping material can be inserted safely and easily. Little effort is required to tighten and tie the material. With a weight of only 3.5 kg, the device is remarkably light. Large and bulky packages can also be strapped easily.

Advantages

- For steel strap 13, 16, 19 mm
- Tensions up to 6,500 N
- Lightweight
- Horizontal and vertical strapping
- Simple and robust
- No seals required

Options

- Steel strap dispenser
- Steel strap scissors
- Strap cutter
